

It will be up to you to venture  
through the gaps in time where  
change is waiting.

## GAPS IN TIME

A new beginning . . . the choice is available daily  
However, often it is saved for the beginning of a new year

The past has fallen away as you have slept  
and dreamed yourself into the present  
May your dreams waiting to be fulfilled have  
a clear path to so many grand tomorrows  
Allow forgiveness to thrive within your heart  
with valuable insights

An invitation from the core of a happy, peaceful existence  
meets you face-to-face

Honor your deepest growth and spend moments  
under the stars and chasing waterfalls  
Let go of the “what and who was” to see  
your brightest days

Often the pain of letting go comes with what we think  
others will feel by our changes

Growth is a choice for all, and you will never  
please everyone – and often not even the  
ones you intend to please most

Keep growing anyway . . .  
that’s where your strongest self is

Where moments of awareness  
exist, curiosity teaches.

## DEPTH OF REFLECTION

Is the depth of a reflection upon water infinite?

Where does it start?

Where does it extend?

Upon a breeze, an unsteadiness gives a blur

Calm pristine duplication in the reflection recovers

Steadiness reserves itself

Offering peace to a storm

Sunshine arrives with rain upon its rays

An open sky seems to smile upon the waters

Leaving curiosity to dance upon the moment

Where does it start?

Where does it extend?

Where pristine is duplicated in a reflection

Love is moved within the awareness

Where does it start?

Where does it extend?

Rain dances with the sun

Beauty of a moment arrives

Awareness in every breath takes place

Love is in the rays

Love is in the ripples of the water upon a whisper of wind

Love is in the rain asking for the hand of every sunshine rays

Love is

Where it starts

Where it extends

Within
